

Village of Windham Safety Meeting

July 11, 2006

Attending: Scott Garrett, Marian Garrett, Lori Lee, Rachel Barrett, Clair Simpson

Meeting called to order at 7:30 p.m.

Fire Chief Simpson state that areas need to be designated for tornado shelters because residents are coming to the Fire Station, which creates unnecessary confusion for the firemen trying to calm the residents and getting prepared for an emergency.

Locations suggested: High School for residents from trailer park and surrounding area; KT school for the apartment complex areas; East Elementary and Catholic Church for east end of town; Methodist Church for north side of town – will try to confirm these locations.

Clair reported the Department has received a \$7,000.00 EMS grant for training – three sets of turn-out gear (approx. \$2,000.00 each set) will be purchased with this money. Personnel will be doing fit testing on equipment.

Chief met with County Officials – received regulations on trailer parks; trailer park owner to be issued citation because of road condition from county.

Police Department requested repair of air conditioner!!! Will check prices on a new one.

Scott Garrett reported several vacant lots on the East end of town are not being mowed by owners – letters to be sent out. Also, there is a problem with 4-wheelers using the roads.

Meeting Adjourned at 8:30 PM

Respectfully Submitted by:

Rachel W Barrett
